Insmmed Announces Restructure, Settlement Ending IPLEX(TM) Patent Dispute

RICHMOND, Va., Mar 07, 2007 (BUSINESS WIRE) -- Insmmed Inc., (NASDAQ: INSM) announced today that it has restructured its operations as a result of the litigation settlement with Tercica Inc. (NASDAQ: TRCA) and Genentech Inc. (NYSE: DNA), which was announced yesterday, ending all litigation between the parties.

In its restructuring, Insmmed's sales and marketing group will be eliminated and production at Insmmed's manufacturing site in Boulder, Colorado will be scaled back, to reflect the reduced drug product requirement. The Company anticipates that the current workforce of 150 will be reduced by approximately 34% as a result of the restructure. The projected savings are expected to extend the Company's current cash reserves and allow the Company to fund its operations into the fourth quarter of 2007. As of December 31, 2006 Insmmed had \$24.1 million of cash on hand.

Geoffrey Allan Ph. D., President, CEO and Chairman of Insmmed, commented: "With the lawsuit behind us we can now focus all our efforts on developing IPLEX for the promising indications we have already identified, and with the License and Development agreement with Tercica and Genentech in place we believe we are well positioned for success." Dr. Allan added that, "The end of litigation removes a cloud from the Company's future and the consequent restructuring allows for an improved financial position."

The Company is presently conducting ongoing clinical research in patients with HIV associated Adipose Redistribution Syndrome (HARS) and Myotonic Muscular Dystrophy (MMD). The clinical trial for HARS is ongoing at the University of California, San Francisco while the MMD clinical trial is ongoing at the University of Rochester. Initial data from both trials is expected to be released in Q2 2007.

Conference Call Today

The Company will host a conference call on Wednesday, March 7 at 11:00 a.m. (ET) to provide an update on the litigation with Genentech and Tercica, and other business details.

Among participants on the call will be Geoffrey Allan, president and CEO of Insmmed and Kevin Tully, Executive Vice President and CFO.

Interested investors can listen to the call over the internet from Insmmed's investor relations website at www.insmed.com or by dialing (888) 802-2225 (domestic) or (913) 312-1268 (international).

About Insmmed

Insmmed Inc. is a biopharmaceutical company focused on the development and commercialization of drug candidates for the treatment of metabolic diseases and endocrine disorders with unmet medical needs.
