# Insmmed to Present at the 2007 BIO Investor Forum on Wednesday, October 10, 2007

RICHMOND, Va., Oct 03, 2007 (BUSINESS WIRE) -- Insmmed Inc. (Nasdaq:INSM), a biopharmaceutical company focused on the development and approval of drugs for the treatment of metabolic diseases with unmet medical needs and the development of a comprehensive portfolio of follow on biologics, today announced that it will present at the 2007 BIO Investor Forum in San Francisco.

The conference, to be held at the Palace Hotel in San Francisco, will run from Tuesday, October 9th through Thursday, October 11th. Steve Glover, the President of Insmmed Therapeutic Proteins will make the presentation on Wednesday, October 10, 2007 at 6:15 p.m. Eastern Time (3:15 p.m. Pacific Time).

"We look forward to participating in the BIO Investor Forum where we will provide an update on the progress of our dual-strategy growth plan based on our proprietary protein platform and the development and manufacture of follow-on biologics," said Mr. Glover.

The Company will also hold one-on-one meetings with investment firm representatives.

Individuals interested in listening to the live presentation via the Internet may do so by visiting [www.insmed.com](http://www.insmed.com). A replay will be available on the Company's Web site for 30 days.

## About Insmmed Incorporated

Insmmed, a development stage biopharmaceutical company with extensive expertise in protein drug development, is pursuing a dual path strategy involving entry into the follow on biologics arena (also known as biosimilars, biogenerics and biologics) when the patents covering the innovator products expire, and advancing its proprietary protein platform into niche markets with unmet medical needs. ## Forward Looking Statements

This release contains forward-looking statements which are made pursuant to provisions of Section 21E of the Securities Exchange Act of 1934. Investors are cautioned that such statements in this release, including statements relating to planned clinical study design, regulatory and business strategies, plans and objectives of management and growth opportunities for existing or proposed products, constitute forward-looking statements which involve risks and uncertainties that could cause actual results to differ materially from those anticipated by the forward-looking statements. The risks and uncertainties include, without limitation, risks that product candidates may fail in the clinic or may not be successfully marketed or manufactured, we may lack financial resources to complete development of product candidates, the FDA may interpret the results of studies differently than us, competing products may be more successful, demand for new pharmaceutical products may decrease, the biopharmaceutical industry may experience negative market trends, our entrance into the follow on biologics market may be unsuccessful, our common stock could be delisted from the Nasdaq Global Market and other risks and challenges detailed in our filings with the U.S. Securities and Exchange Commission, including our Quarterly Report on Form 10-Q for the quarter ended June 30, 2007. Readers are cautioned not to place undue reliance on any forward-looking statements which speak only as of the date of this release. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances that occur after the date of this release or to reflect the occurrence of unanticipated events.
