Insmed Reports Financial Results for Third Quarter and Nine Months Ended September 30, 2007

RICHMOND, Va., Nov 08, 2007 (BUSINESS WIRE) -- Insmed Inc. (Nasdaq:INSM), a biopharmaceutical company with unique protein process development and manufacturing experience and a proprietary protein platform aimed at niche markets with unmet medical needs, today announced results for the third quarter and nine-month period ended September 30, 2007.

Revenues for the third quarter ended September 30, 2007 were \$1.5 million, up from \$226,000 for the corresponding period in 2006. The increase was mainly attributable to improvements in cost recovery from our Expanded Access Program (EAP) to treat patients with amyotrophic lateral sclerosis (ALS). This was partially offset by the revenues lost from our withdrawal of IPLEX(TM) from the short stature market pursuant to the terms of our settlement agreement with Genentech Inc. and Tercica Inc.

The net loss for the third quarter of 2007 was \$3.9 million or \$0.03 per share, compared with a net loss of \$12.4 million or \$0.12 per share in the third quarter of 2006. This improvement was attributable to a reduction in selling, general and administrative (SG&A) expenses, which fell to \$1.0 million from \$7.0 million, a drop in research and development (R&D) expenses to \$4.6 million from \$5.3 million, and the elimination of cost of goods sold.

The reduction in SG&A was due primarily to reduced litigation expenses and the elimination of commercial expenses associated with our business restructuring plan. The decrease in R&D expenses reflected a reduction in our clinical and commercial manufacturing activity and the elimination of the costs of goods sold resulted from our withdrawal of IPLEX(TM) from the short stature market.

Interest income in the third quarter of 2007 fell to \$370,000 from \$520,000 in the third quarter of 2006. This was due to the combination of a lower average cash balance on hand and lower interest rates during the most recent quarter. Interest expense quarter on quarter remained the same.

For the first nine months of 2007, revenues totaled \$5.4 million, up from \$489,000 in the corresponding period of 2006. This increase was due to improvements in the cost recovery from our EAP and the receipt of licensing income from our agreement with NAPO Pharmaceuticals, (NAPO), combined with increased sales of IPLEX(TM) during the first quarter of 2007.

The net loss for the first nine months of 2007 was \$16.7 million or \$0.15 per share, compared to \$34.7 million or \$0.37 per share for first nine months of 2006. R&D expenses dropped to \$14.4 million from \$16.8 million, reflecting lower litigation expenses included in R&D during the first quarter of 2006, and reduced clinical and commercial manufacturing activity. SG&A expenses fell to \$7.5 million from \$16.0 million, due to a combination of reduced litigation expenses and the elimination of commercial expenses which was partially offset by severance costs associated with our business restructuring plan.

Interest income for the first nine months of 2007 was \$0.9 million, compared to \$1.4 million for the first nine months of 2006. This decrease was mainly due to lower interest rates and a lower average cash balance for the first nine months of 2007 as compared to the same period in 2006. Interest expense for the first nine months of 2007 was \$465,000, compared to \$3.2 million for the first nine months of 2006. This decrease in interest expense resulted from lower amortization of the debt discount associated with our March 2005 financing, as an acceleration of the discount took place in the first quarter of 2006 due to the conversion of notes into shares of our common stock.

As of September 30, 2007, we had total cash and cash equivalents on hand of \$18.9 million, compared to \$24.1 million on hand as of December 31, 2006. The \$5.2 million decrease in cash and cash equivalents reflected the use of \$22.0 million for operating activities and a \$500,000 investment in NAPO. This decrease was partially

offset by net proceeds of \$17.0 million from an offering of our common stock and warrants to purchase our common stock and \$300,000 from a reduced letter of credit.

Investor Conference Call

Insmmed will host a conference call on Thursday, November 8, 2007 at 4:30 p.m. Eastern Time to discuss the financial results for the third quarter and nine months ended September 30, 2007, as well as to provide a business update. The call can be accessed live by dialing 877-407-0778 toll free in the United States and Canada, and 201-689-8565 elsewhere.

A telephonic replay of the call will be available approximately two hours afterwards for a period of two weeks at 877-660-6853 from the United States and 201-612-7415, for international callers. The account number is 286 and conference ID number is 259108. On the internet, a replay of the conference call will be available at Insmmed's website at www.insmed.com for 90 days.
