Insmmed Announces That NASDAQ Temporarily Suspends Minimum Bid Closing Price Rule

RICHMOND, Va., Oct 21, 2008 /PRNewswire-FirstCall via COMTEX News Network/ -- Company Postpones Special Meeting of Shareholders until further notice

Insmmed Inc. (Nasdaq: INSM), a developer of follow-on biologics and biopharmaceuticals, today announced that on Thursday, October 16, 2008 NASDAQ issued a notice that:

Prior to the suspension, Insmmed had been given until December 15, 2008 to evidence a closing bid price of \$1.00 or more for a minimum of 10 consecutive business days to remain listed on The NASDAQ Stock Market.

As a result of the rules suspension the Special Meeting of Shareholders, planned for November 24, 2008 to seek shareholder approval of a reverse split, should the Company need it, has been postponed until further notice.

Insmmed will provide further information as it becomes available from NASDAQ.

About Insmmed

Insmmed Inc. is a biopharmaceutical company with unique protein process development and manufacturing experience and a proprietary protein platform aimed at niche markets with unmet medical needs. For more information, please visit www.insmed.com

Forward-Looking Statements

This release contains forward-looking statements which are made pursuant to provisions of Section 21E of the Securities Exchange Act of 1934. Investors are cautioned that such statements in this release, including statements relating to planned clinical study design, regulatory and business strategies, strategic alternatives, plans and objectives of management and growth opportunities for existing or proposed products, constitute forward-looking statements which involve risks and uncertainties that could cause actual results to differ materially from those anticipated by the forward-looking statements. The risks and uncertainties include, without limitation, risks that strategic alternatives may never be consummated, product candidates may fail in the clinic or may not be successfully marketed or manufactured, we may lack financial resources to complete development of product candidates, the FDA may interpret the results of studies differently than us, competing products may be more successful, demand for new pharmaceutical products may decrease, the biopharmaceutical industry may experience negative market trends, our entrance into the follow-on biologics market may be unsuccessful, we may be unable to secure an appropriate business partner for our follow-on biologics business, our common stock could be delisted from The NASDAQ Capital Market and other risks and challenges detailed in the Company's filings with the U.S. Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2007. Readers are cautioned not to place undue reliance on any forward-looking statements which speak only as of the date of this release. The Company undertakes no obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances that occur after the date of this release or to reflect the occurrence of unanticipated events.
