Insmmed to Host Second Quarter 2020 Financial Results Conference Call on Thursday, August 6, 2020

BRIDGEWATER, N.J., July 27, 2020 /PRNewswire/ -- Insmmed Incorporated (Nasdaq:INSM), a global biopharmaceutical company on a mission to transform the lives of patients with serious and rare diseases, today announced that it will release its second quarter 2020 financial results on Thursday, August 6, 2020.

Insmmed management will host a conference call for investors beginning at 8:30 a.m. ET on Thursday, August 6, 2020 to discuss the financial results and provide a business update.

Shareholders and other interested parties may participate in the conference call by dialing (888) 317-6003 (domestic) or (412) 317-6061 (international) and referencing conference ID number 9359069. The call will also be webcast live on the company's website at www.insmed.com.

A replay of the conference call will be accessible approximately one hour after its completion through August 20, 2020 by dialing (877) 344-7529 (domestic) or (412) 317-0088 (international) and referencing replay access code 10146257. A webcast of the call will also be archived for 90 days under the Investor Relations section of the company's website at www.insmed.com.

About Insmmed

Insmmed Incorporated is a global biopharmaceutical company on a mission to transform the lives of patients with serious and rare diseases. Insmmed's first commercial product, ARIKAYCE® (amikacin liposome inhalation suspension), is the first and only therapy approved in the United States for the treatment of refractory *Mycobacterium avium* complex (MAC) lung disease as part of a combination antibacterial drug regimen for adult patients with limited or no alternative treatment options. MAC lung disease is a chronic, debilitating condition that can cause severe and permanent lung damage. Insmmed's earlier-stage clinical pipeline includes brensocatic, a novel oral reversible inhibitor of dipeptidyl peptidase 1 with therapeutic potential in non-cystic fibrosis bronchiectasis and other inflammatory diseases, and treprostinil palmitil, an inhaled formulation of a treprostinil prodrug that may offer a differentiated product profile for rare pulmonary disorders, including pulmonary arterial hypertension. For more information, visit www.insmed.com.
